## **BECOME A TTAG AMBASSADOR**

Tics and Tourette across the Globe (TTAG) is the international umbrella organisation for Tics and Tourette Syndrome (TS) Patient Organisations and TTAG Ambassadors across the Globe.

WHAT WE

DO

### TTAG Ambassador Hafsa Killru

Hafsa Killru, Boss Up Foundation, Sri Lanka's and South Asia's first platform to advocate for Tics & Tourette Syndrome:

"The event was amazing! No one expected the launch of our initiative and it left everyone so emotional after hearing my story. A few of the guests personally reached out to me after the event and revealed that they have similar neurological conditions as well and it made them feel like they're not alone and that they're proud for the start of something like this. We're already getting interested sponsors!"

## WHY SHOULD YOU JOIN?

### What you get as an Ambassador

- Access to experts at TTAG, the global TS umbrella organisation.
- Access to online training, resources and information.
- Support how to raise awareness in your country and how to advocate for Tics and TS.

**Represent those touched by Tics and TS in your country and be their voice!**

**Our vision is a world in which people with Tics and Tourette Syndrome are understood, accepted, respected, empowered and included in all contexts of life.**

TTAG

## AMBASSADOR PROGRAM

### TTAG Ambassador

TTAG Ambassadors work with us to raise awareness, reduce stigma and provide hope and support to those touched by Tics and TS in their country.

### Who Can Be A TTAG Ambassador?

Whether you're an individual with lived experience, family member, carer, a professional or simply someone who cares about creating a positive change, our TTAG Ambassador program is for you

### To Be A TTAG Ambassador you must

- be an individual
- apply online through our website.
- live within the country of your application.
- live within a country/region without TS patient organisation.
- be prepared to volunteer your time engaging with Tics and TS communities in your country.
- Raise awareness, promote inclusion and understanding.
